Olive leaf tea has been made in Italy for hundreds of years, being prized for its health-enhancing qualities, and we are delighted to now offer this beautifully delicate tea at Mad Hatters!

The organic olive groves which provide these wonderful leaves are situated on an ancient archaeological site in the Abruzzo region of Italy where every morning, after the dews have dried, the youngest tender leaves are picked by hand and slowly allowed to dry in special ovens.

The fresh mountain air and pure waters running off the Apennines mean that the organic olive trees are growing far from any kind of pollution, and this new tea is regenerating an historical agricultural zone rich in biodiversity and of outstanding natural beauty.

***Allow the tea to brew for 5-6minutes in your pot before pouring***

Some of the many benefits of this tea are:

- ✓ Caffeine and tannin free
- ✓ Extremely high in antioxidants (including oleuropein) – more than green tea or vitaminC
- ✓ Antibiotic, anti-viral & anti-fungal
- ✓ Proven aid to weight loss
- ✓ Used traditionally to lower blood pressure & cholesterol
- ✓ Proven to boost the immune system
